

## Chemistry and Chemical Biology PhD Checklist

- Intro to Research, 16:160:603, (1 credit) - Must be completed in the first semester of graduate study
  
- Research Colloquium, 16:160:607, (1 credit)  
- Must take this course 2 times within first two years of graduate study
  
- Research Colloquium, 16:160:608, (1 credit)  
- Must take this course 2 times within first two years of graduate study
  
- Seminar in Chemistry, 16:160:611, (1 credit)  
- Must be completed in the third semester of graduate study
  
- Seminar in Chemistry, 16:160:612, (1 credit)  
- Must be completed in the fourth semester of graduate study

All Students must take an additional 15 credits of lecture courses (graduate level, >500), approved by your adviser.

	Title	Course Number	Credits
<input type="checkbox"/>	_____	_____	_____
<input type="checkbox"/>	_____	_____	_____
<input type="checkbox"/>	_____	_____	_____
<input type="checkbox"/>	_____	_____	_____
<input type="checkbox"/>	_____	_____	_____

The remaining credits will be in Research Chemistry (16:160:702) or Independent Studies in Chem (16:160:601)

\*You must also include your fellowship, TA or GA appointment on your schedule each semester.

Total Credits Required: 72
