APPLICATIONS DUE JANUARY 31, 2020

RUTGERS – JILIN UNIVERSITY SUMMER CHEMISTRY FELLOWSHIP

May and June 2020 at Jilin University, Changchun, China
(all expenses paid)

Spend 6-8 weeks this summer studying chemistry and experiencing Chinese culture.

Jilin University is Rutgers’ sister school in China with a very large and strong Chemistry program (1000 undergrad majors, one of the biggest in the world).

The program will include:

- Research work in a laboratory of one of their active research teams
- Participation in a cultural program with Jilin chemistry students.
- Basic conversational Chinese class.

For students who are accepted, we (and Jilin) will cover all costs associated with the program, including airfare, local travel, accommodations, meals, etc.

ARE YOU INTERESTED?

Application procedure: If you are a
- Junior or sophomore
- Chemistry major (preferred) or minor
- GPA of at least 2.75

Send an unofficial copy of your transcript and a short (1-page max) essay on why you would like to study chemistry in China to Dean Bernstein (johanna.bernstein@rutgers.edu).
